**DETAILED ACTION**

Claims 1-30 are pending in the application.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-21 and 27-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claim 1 refers to the variable "w" as being 0 or 1, however, there is no variable "w" denoted in Formula I. Therefore, it is unclear as to what specific structure of Formula I applicant intends to claim.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Wright et al. {US Pat. 3665269}.

Wright et al. disclose a dielectric film, comprising an organic material, having a thickness of up to 1,000 Angstroms (see. Col. 1, lines 23 -35 and Table 1 in Col. 5).
